

Latest Pest Management Courses

SYDNEY 2016 & 2017

Pest Management Licensing courses and Timber Pest courses are now being offered in 2016.

These quality 5 day courses aim to introduce the basic principles of public health and timber pest management and extend the knowledge of those already working within the industry. All courses have the primary objective of providing the precise information needed to undertake pest management successfully and to gain your license. Helpful hints and tips will also be offered to assist in business growth and productivity.

Course 1: Pest Management Licensing (see form on pg 3 for course dates)

This training course is designed to provide you with the basic knowledge and skills to be a licensed pest management technician. The course covers both training and assessment. After completing your training and assessment, you will receive a Statement of Attainment which can then be submitted to your government licensing office to receive your license.

Course 2: Timber Pest Management (see form on pg 3 for course dates)

This training course is designed to provide you with the knowledge and skills to be a competent Termite and Timber Pest Manager. The course covers both training and assessment. Upon completion of your training and assessment, you will receive a Statement of Attainment which can be submitted to your government licensing office, insurer or accreditor.

The Training courses will begin each day at 8.30am - 4.00pm Mon-Thurs (**and concludes 1.00pm Friday**). They include morning tea, and afternoon tea on each day. Course fees also include books, notes, resources, ongoing assistance and assessments until the qualification is completed.
